

## TAPER MILL

TAPER MILL HAS PROVEN MOST SUCCESSFUL IN CORRECTING COLLAPSED CASING PROBLEMS. THESE RUGGED MILLS (DRESSED WITH TUNGSTEN CARBIDE) WILL MILL OUT FULL GAGE CASING THAT IS SPLIT AND COLLAPSED. STUCKEY'S TAPER MILLS ARE ALSO USED FOR REMOVING BURRS AND CLEANING UP PERMANENT WHIPSTOCK WINDOWS. IT IS RECOMMENDED TO RUN MILLS ON STABILIZED DRILL COLLARS FOR MAXIMUM RESULTS.
